### SOME POINTS TO REMEMBER...

- For practical administration reasons, it may take at least 3 months for the full operations of the MPS to be applied to your unsolicited mail.
- You will still receive personalised mailings from companies with whom you have done business in the past. If you wish to stop these mailings, you should contact the companies direct.
- Non-personalised material is not covered by MPS.
- If you register with MPS, please remember to let us know of any future change of address.
- Your name will remain on the MPS file for five years. If you wish to remain on the MPS file beyond this date, you will need to renew your application at the end of the five year period.
- The MPS can only prevent mailings which are addressed exactly as the information which you supply for registration. If there are possible variations in the manner in which items can be addressed to you, you should supply such details when applying for MPS registration.
- To assist in the creation of an international MPS the details you supply may be passed on to recognised Mailing Preference Services in other countries.
